

## CERTIFICATE

**Jiri Kornhäuser**

**Position:** Technician at company Re Technik S.R.O.

attended successfully from 13.05.2022 until 13.05.2022 the following training:

tirak<sup>™</sup> Hoist type X500-X1530  
250 h / 500 h / 10 years General Overhaul

**Location:**

Bergisch Gladbach

**Content:**

- Design and function (mechanical and electrical)
- Electric maintenance
- Motor overhaul
- Gear overhaul
- 250h/500H/10years General Overhaul report and documentation

This training certificate allows the trainee to perform the General Overhaul.

With this successful training the trainee is considered as trained and certified person authorized to execute works for the above mentioned products. The attendant also must make himself familiar with the appropriate and applicable local public labor protection directives, accident prevention regulation and the generally accepted rules of technology to be able to judge the safe condition of hoistable man riding equipment.

**Trainer:**

Klaus Schäfer  
Tractel SAS

The certificate is valid until 13.05.2023

The certificate loses its validity when the certified person leaves the above mentioned company.

The certificate holder is not authorized to train third parties.

☐ I have read and understood the 250h/500h/10years General overhaul manual and consider being fully trained to 250h/500h/10years General overhaul work.
